## Foreword

Once again we extend our thanks for the confidence shown in us and our plants by your many orders. We welcome all new customers and hope that you will derive as much pleasure in Merry Gardens' plants as we do in growing them. It is our aim to grow healthy plants and raise the newest and finest strains along with the old favorites.

Although we guarantee most of our plants to reach the customer safely, we now carry a few extremely rare or hard-to-ship plants which we do not guarantee. These we have indicated with the sign (†). We take special care in selecting strong plants and packing so that they will arrive safely. The many letters we receive from as far away places as Oregon, Alaska, Puerto Rico, Hawaii and Texas testify to the fact that our customers are more than pleased with our packing, quality of plants and the service we give. Of course, an occasional order may be delayed or crushed in the mail and we want to hear about those also so that we can make proper adjustments.

We enjoy receiving letters about plants and would like to answer all the questions asked, but our time is limited. We are glad however to help on special problems. To make this easier we suggest a question and answer form. Please leave space for the answers and enclose self-addressed, stamped envelope. For more detailed information than we can give, there are many inexpensive (as well as elaborate) books. We highly recommend "The Complete Book of House Plants" by Grabe for which we supplied many photos and information. It sells on the newsstands for 75c or from us at 85c prepaid. "Exotica" now in its second edition is bigger and better than ever with 1000 more photos, 400 more pages and 10 more color plates. When published price will be \$25.00. We are proud of the privilege we had to contribute information and photos.

Our plants are listed as botanically correct as possible. For those who find the botanical names confusing, we have included the common name, when known, in parentheses.

We sincerely hope this catalog will afford an opportunity for you to have greater pleasure and success in plant growing. To all of you, we extend a cordial welcome to visit us in our lovely location amid the Camden Hills.

## AIDS IN GROWING HEALTHY HOUSE PLANTS

**ANTROL HOUSE PLANT INSECT BOMB** - Here is the answer to your insect problem. This will protect your plants from all types of insects including Mealy Bugs, White Flies, Aphids, Thrips, and Mites. It contains four different ingredients usually found in separate insecticides — Pyrethrins, Rotenone, Piperonyl, Butoxide. .... 6 oz. size Bomb 1.00

**ANTROL MULTI-PURPOSE ROSE SPRAY FLOWER BOMB** - This is the answer to about everything, including insects mentioned above in addition to mildew and other fungus diseases. Recommended to use on plants susceptible to fungus diseases, as it contains Captan and Karathane which, of course, leave a residue on the plants when used. It also contains Pyrethrins, Rotenone and Lindane for insect control. .... King Size Bomb, 12 oz. 1.75

**RA-PID-GRO** - The all-purpose plant food. We highly recommend this fertilizer for all potted plants. It comes in highly concentrated form, containing 23% Nitrogen, 21% Phosphoric Acid, 17% Potash plus all essential trace elements. For potted plants, use only 1 teaspoonful to 2 quarts of water and feed every two or three weeks. Comes in handy easy-to-ship foil envelopes. .... 6 oz. .50

**SOIL FOR POTTING** - Our soil is thoroughly sterilized and scientifically prepared. We carry three main types: Geranium, Begonia, and African Violet soil. Most of our plants are grown in one of these types. The greatest expense in shipping soil is the postage. Cash and carry soil is 10c to 15c per quart according to the type. Depending on the postal zone, we can ship 2 to 3 quarts to states east of the Mississippi (up to zone 6) for \$1.00 postpaid. If you order more than \$1.00, you will get about one more quart per each dollar sent.

**TO SAVE ON POSTAGE** - If you have access to good clean soil and sand, we can send you our concentrated mixture of fertilizer and humus with directions on proper amounts of soil and sand to use and you can mix your own type. Price 3 quarts for \$1.00 postpaid. This makes 12 qts. of Geranium soil or 6 qts. of Begonia soil, or 4½ qts. of Violet soil.

**PLASTIC POT LABELS:** The finest, neatest marker for your plants.

Pure white. Will not rot. Easy to write on.

\$1.25 per 100. (Minimum 25)

**PLASTIC FLOWER POTS** — We will be glad to supply our customers with plastic pots such as we now use for growing and shipping plants. These are called utility pots. Sold in mixed colors only. Prices as follows:

		Price per 10	Price per 100
Small size	2¼" to 2½"	\$ .50	\$4.00
Medium size	3" to 3½"	.80	7.00
Large size	4"	1.00	9.00

**THE HERB WHEEL** - Complete information on what dishes to use the 12 major herbs in. Just turn the dial to the variety of herb required and read through the window its various uses. We have used this chart for many years as a guide to satisfactory herb cookery. We are happy to offer it to our customers. .... .75
